---	--

If no, please provide an excel spreadsheet with the device unit number in one column and its respected Penske unit number in the subsequent column and row.

Enter any additional notes below.

I authorize the above stated device and/or processor to transfer our electronic fuel and mileage records to Penske Truck Leasing for the purpose of filing our fuel taxes. I understand that this process will begin after 30 days at the beginning of the first day of a new month. (Example: signed January 15, 2012 / start date March 1, 2012).

Initials

I understand that all paper Driver Trip Reports must cease on the mutually agreed start date of the electronic process for all trucks equipped with fully functional GPS devices. Until such date is agreed upon, the customer agrees to continue submitting Penske DTRs along with original fuel receipts. If at any time the device fails to capture mile and/or fuel detail, Penske DTRs along with fuel receipts must be completed until the device is accurately capturing the data. Trucks not equipped with GPS devices, Penske rental and or substitute units are required to complete and submit Penske Driver Trip Reports.

Initials

The customer agrees to notify Penske Truck Leasing in advance to any change regarding their OBC setup. This includes but is not limited to (fueling, A&A, unit number changes, CGSV, cross-references, etc.)
